Preferred Parking Now Available for Gateway Arch Visitors

*Partnership announced with Stadium East Garage in downtown St. Louis;
\$1 from each parking purchase supports Gateway Arch Park Foundation*

ST. LOUIS (April 14, 2022)—Through a partnership between [Gateway Arch Park Foundation](#) and InterPark, preferred parking for visitors to Gateway Arch National Park is now available at the Stadium East Parking Garage, located at 200 South Broadway in downtown St. Louis. Previously, there was no preferred parking program for Arch visitors.

With each preferred parking purchase at the Stadium East Garage, \$1 will go to support ongoing conservation and preservation efforts, educational opportunities, and community programs at [Gateway Arch National Park](#) through the park's official philanthropic partner Gateway Arch Park Foundation.

"We are thrilled to introduce this partnership with InterPark and provide Gateway Arch visitors a convenient parking option while supporting our city's urban national park," said Ryan McClure, Executive Director of Gateway Arch Park Foundation. "This program makes parking easier while ensuring our park is enjoyed by St. Louisans and visitors for generations to come."

Pricing and How to Purchase

Preferred Arch parking is \$9 for the first five hours. For stays lasting longer than five hours, the current posted rate will apply. Visitors can pre-purchase parking with no validation required online at iparkit.com/TheArch. If parking is not pre-purchased, validation is required by scanning/stamping the parking ticket at one of two validators located inside the Gateway Arch Visitor Center. Validators are located in the Arch Visitor Center main lobby just outside the restrooms and near the "Heading West" exhibit gallery on the visitor center lower level, next to the Explore St. Louis Information Desk.

Pre-purchasing parking is strongly recommended on St. Louis Cardinals game days. If parking is not pre-purchased on Cardinals game days, event day parking rates will apply and parking tickets cannot be validated.
