St. Louis Riverfront

Leonor K Sullivan Boulevard ("LKS") invites you to explore the possibilities of an exceptional event space perfectly situated in the heart of the St. Louis region well prepared to host your public event. Located on the edge of Gateway Arch National Park and at the foot of the nation's tallest monument that soars 630 feet above the Mississippi River, LKS was reimagined and completely rebuilt in 2016 with new capabilities and amenities.

The 3/4-mile section of street can be closed to vehicle traffic, creating a riverfront promenade capable of accommodating thousands of guests for large festivals and events. The river overlook stage sits directly across from the 3,500 capacity Arch grand staircase, which provides for a dramatic amphitheater.
